Subject: Something worth talking about.

August 2008

Dear Sir/Madame,

During the 2007 year Tyler & Katryna attended only two of the eight week session of summer camp offered by Don Reist of Tutorwiz Educational Centre. The results of Tyler and Katryna's experience are well documented with the improved grades of their report cards. Tyler's 'C's & D's' were replaced with 'A's & B's' with Tyler graduating Grade 8 and receiving the 'Most Improved Student Award'. Katryna was recognized for being constantly on the 'Honor Role'. The intangible benefits that Tyler and Katryna have received as a result sharing quality time with Don are as incredible. Self confidence, self esteem, are strong and radiate out from within them. The skill level, proficiency and confidence which Tyler and Katryna are able to manipulate and utilize the various computer programs are amazing. This past spring, Tyler and Katryna approached me inquiring if they would be able to return to Tutorwiz as their 'summer camp' activity for 2008. Of all the choices and options available my children self advocated to return to Tutorwiz. All I can say is Thank you Don and to the team at Tutorwiz for having an incredible, lasting, positive impact and supporting my children as they work through the new challenges associated with each new project on their Tutorwiz agenda. I am confident that we will see you during the 2009 Summer Camp Sessions.

Best regards,

Helena (Rie) Gillam
