To Whom It May Concern:

I would like to submit this recommendation letter on behalf of Tutorwiz Education Centre and Don Reist.

I fully support Tutorwiz and Don Reist for the nomination of the Ajax-Pickering Board of Trade 2008 Business Excellence Award.

Prior to signing my son, Daniel up with Tutorwiz, he was struggling with school because of his learning challenges and self confidence. Due to speech challenges when Dan was younger it resulted in him being continuously 2 years behind the rest of his class. The school resources for one on one time with Daniel to help overcome his challenges were severely limited and made it difficult to help him to catch up with the standard school curriculum.

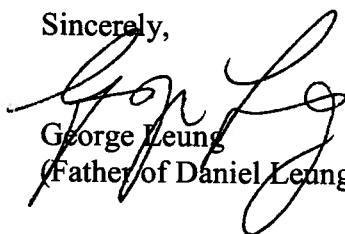

Don has been a great help and inspiration in improving my son's enjoyment and confidence in learning again through assistive technology offered at Tutorwiz. Dan has come a long way in learning and retaining his multiplication tables and reading abilities. Don continues to work with Dan on his fundamentals through assistive technology and I am confident that Dan will be catching up with his grade level.

I feel that Tutorwiz is on the cutting edge of educating students both with learning challenges and without learning challenges through assistive technology. In the world of computers, internet and hyper-development we need to find new ways to improve and enhance our children's abilities to learn. It would seem that children are using computers at an early age and have been learning through computer games and the internet prior to attending any classic school classroom. They have already formed and developed learning habits through using the computer not to mention gaining a large interest in interacting with computers. I realize that assistive technology has the ability to quickly customize the software to adapt to the child's learning abilities. This has seemed to have helped my son, Dan to enjoy learning again. He can work on his fundamentals through a nonthreatening and comfortable medium that will progress with him as he advances.

Tutorwiz has helped my son and many other children with learning difficulties to improve otherwise would have been continuously challenged at school. I urge you to select Tutorwiz as the winner of the Business Excellence Award, a business I consider to be a remarkable contribution to Ajax-Pickering, if not the entire Durham region.

Thank you for your consideration.

Sincerely,

George Leung
(Father of Daniel Leung, a student of Tutorwiz)
