Hi Donald,

I have been meaning to send you a thank you for some time. My daughter attended your camp this summer at MLA. She really loved it. You are truly amazing at boosting kids self esteems with LD's.

You had also given me some advice with regards to purchasing her Kurzweil program. I was uncertain whether to get the colour or black and white version. Under your direction we purchased the colour. I can not tell you how thankful I am for this. When comes to scanning pages from her text books it is so helpful. Important vocabulary words, whether it is from math, science or social studies books are almost always highlighted in colour. In math when she works on patterns and they also include colour changes. The maps in the Social Studies books are always in colour. I am so grateful for your advice with this.

Thanks again,

Linda Liberta (mother of Lee Anne Liberta)
